

Branson - Branson 49

£ 205,000

Description

Barge - 2022 Custom Branson 49 Barge This 15m Mini Replica Branson Designed Barge is perfectly suited for live-aboard cruising for the Rivers and Canals of the UK and Europe. Although her wheelhouse is currently fixed with an air draft of 3.4m this can easily be converted to collapse making her ideal for canal use. 'River Fox' benefits from two en-suite cabins fore and aft with her central open plan galley/breakfast bar and saloon which is both light and bright with plenty of ventilation. The wheelhouse offers plenty of seating with great all round vision for all year round cruising. The raised aft deck with safety rails is a great space for alfresco dining and whiling away those balmy evenings in the sun. This idyllic easy to handle barge also benefits from Solar charging, so she is well suited to being off grid with little to no need for power hook up as she is also fitted with a generator. Sensibly priced for a quick sale, asking £205,000 VAT Paid, part exchange considered. Powered by a Vetus VH4-65hp (21hours) four cylinder shaft drive diesel engine with a ZF gearbox, plus a Vetus Flex coupling to drive shaft shaft with a 4 blade bronze propeller. The dry exhaust system is fitted with a hospital silencer (50db in pilot house) Engine cooling is via a skin box also known as keel cooling so need too check your raw water filters as there are none, perfect for shallow water use. The Hull is built from 6mm Lloyds A1 Steel epoxy coated and finished above the water line in English White and Sapphire Blue. Hull and Superstructure are insulated with a 2in fire retardant spray foam All engineering and electrical installations carried out by Stanley Thomas of Windsor Boat Builders and Marine engineers.
